Name of applicant: KELLY B. AND KARLA R. JENSEN
Source: UNDERGROUND
Basin: PAHRANAGAT VALLEY
Manner of Use: QUASI-MUNICIPAL
Period of Use: January 1st to December 31st
NEW PRIORITY DATE:
Priority Date: ~~03/30/1972~~ JUL 28 2010

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 74652 is issued subject to the terms and conditions imposed in said Permit 74652 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

In order to prove beneficial use on this right, separate metering may be required for the domestic and quasi municipal use.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.005 cubic feet per second or 1.12 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

May 7, 2010

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

May 7, 2012

Map in support of proof of beneficial use shall be filed on or before:
